

HygieniGuard

HYGIENIGUARD™ P•I•R
(PEST INFESTATION REMOVER)

Safe, non-toxic minimum risk pest solution

HygieniGuard™ P•I•R
naturally controls most
pesky insects without
harmful chemicals.

HygieniGuard™ P•I•R is a Pest Infestation Remover which inhibits and removes pests naturally. **P•I•R** is effective for regular use on fruit flies, gnats, ants, boxelders, mosquitos, bedbugs, fleas, mites, lice and others.

The secret to **P•I•R**'s uniquely reliable performance is that it is a proprietary fortified blend of naturally safe raw materials that speed the biological degradation of the pests it mitigates. **P•I•R** combines natural technologies to effectively achieve continuous pest control and management without long-term environmental repercussions. **P•I•R** poses little or no risk and is EPA exempt from FIFRA registration requirements as outlined in 40 CFR section 152.25(f)

- Controls insects without poisons
- Contains food-grade ingredients
- Removes contaminants and odors that encourage future infestation
- Safe for use around people

P•I•R is specifically designed for indoor hard & soft surface applications only.

HygieniGuard

Below are just a few of the Pests that P•I•R effectively and naturally removes from hard and soft surfaces:

- ✓ fruit flies
- ✓ gnats
- ✓ ants
- ✓ boxelders
- ✓ mosquitos
- ✓ bedbugs
- ✓ fleas
- ✓ mites
- ✓ lice and others

Treatment Guidelines

Directions

Soil Treatment: Product is ready to use. Dilute 8-10oz per gallon of water (65-80ml/L) to spray onto 300-500 square feet (23 sq meters - 38 sq meters)

Water Treatment: Dilute 3-4oz per gallon of water (25-30ml/L) and spray onto 1000 square feet (76 sq meters) of water surface area

Airborne Treatment: Dilute 1:1 and manually spray the full volume of the room and contents, working from top to bottom; or use an automatic fogging machine. Caution: Spray may not be suitable for non water-safe surfaces

Carpet Treatment: Use carpet cleaning machine; add 4-6oz per gallon of water (30-50ml/L); follow machine instructions for cleaning and extraction. Caution: Check carpet for color fastness before using product.

Laundry of infested linens: Use 4oz (30ml/L) per load of laundry along with your current detergent; wash on HOT setting. Continue usage until pests are gone. Launder all bedding, curtains, area rugs and other washables. Caution: Check fabrics as HOT setting may not be suitable for all items.

Severe or persistent infestation: Use as directed for airborne, carpet and laundry instructions; additionally, remove any items that are personal or not water-resistant from the room, spray/saturate all corners of room including baseboards, moulding, trim, door and window jams, crevices in built-in furniture and fixtures, etc. Let surfaces absorb the product for 30 minutes or until dry; vacuum or blow out remains. Repeat 3+ times weekly or until pests do not reappear.

For Optimum Results

- Always use as directed
- Use hot or warm water whenever possible when treating infestation
- Try other HygieniGuard™ Clean products by NanoHygenics™ to safely wash away the odor, dirt and grime that attract pests

Technical Specs

pH Range: 3.25-4.20
Fragrance: None added
Appearance: Translucent dark amber liquid
